

# Mapped Experiences

Dubai's most personalised travel superapp—white-labelled by ClonifyNow for global travel entrepreneurs.

**UAE & Dubai**

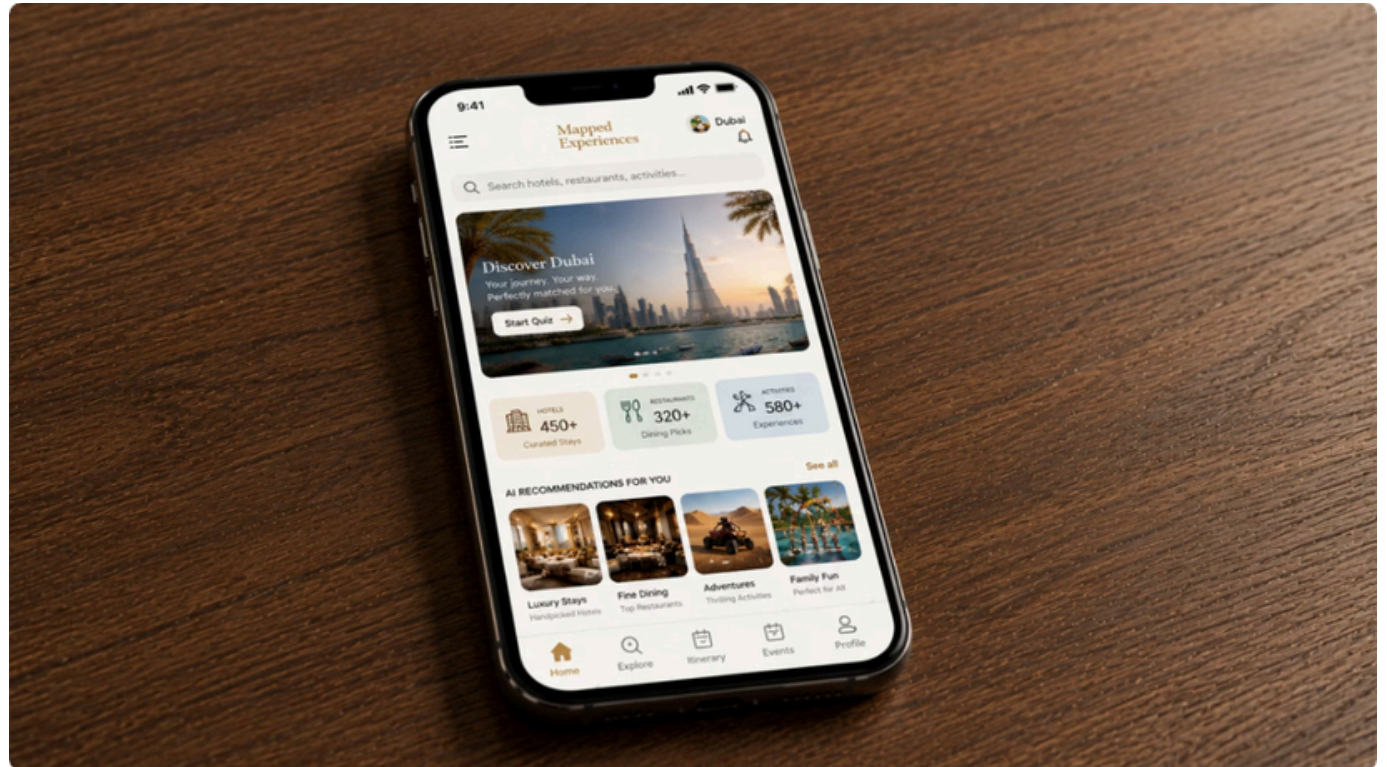

**iOS & Android**

**100+ Subscribers**

# What is Mapped Experiences?

one-stop super app that transforms how travellers navigate Dubai — powered by AI-filtered, expert-curated recommendations. Members complete a short preference questionnaire defining their travel style: luxury, adventure, romance, foodie, or family. The platform instantly filters hundreds of options to deliver highly personalised matches across hotels, dining, activities, and GCC itineraries.

"We're not just another travel app — we're your personal Dubai concierge in your pocket."

## Bespoke Recommendations

AI-filtered hotels, dining, and activities matched to your travel personality.

## Pre-Made Itineraries

Ready-to-use travel plans covering UAE and GCC countries.

## Live Events & FAQs

Real-time local events, travel tips, and up-to-the-minute Dubai updates.

# Key Achievements & Growth Metrics

## GCC Countries

Regional itinerary coverage

- Successfully launched a fully white-labelled AI travel super app in the UAE market.
- Built scalable infrastructure capable of expanding to future global cities.

- Dramatically reduced travel planning time via AI-powered preference filtering.
- Unified hotels, dining, events, and itineraries into a single seamless platform.

# Challenges Travellers Face in Dubai

## Information Overload

Hundreds of options, zero smart personalisation to help travellers decide.

## Zero Personalisation

Generic apps serve identical suggestions to every user, regardless of preferences.

## Time-Consuming Planning

Hours lost researching across blogs, Google Maps, and social media.

## Fragmented Platforms

Multiple apps required for itineraries, events, hotels, and dining.

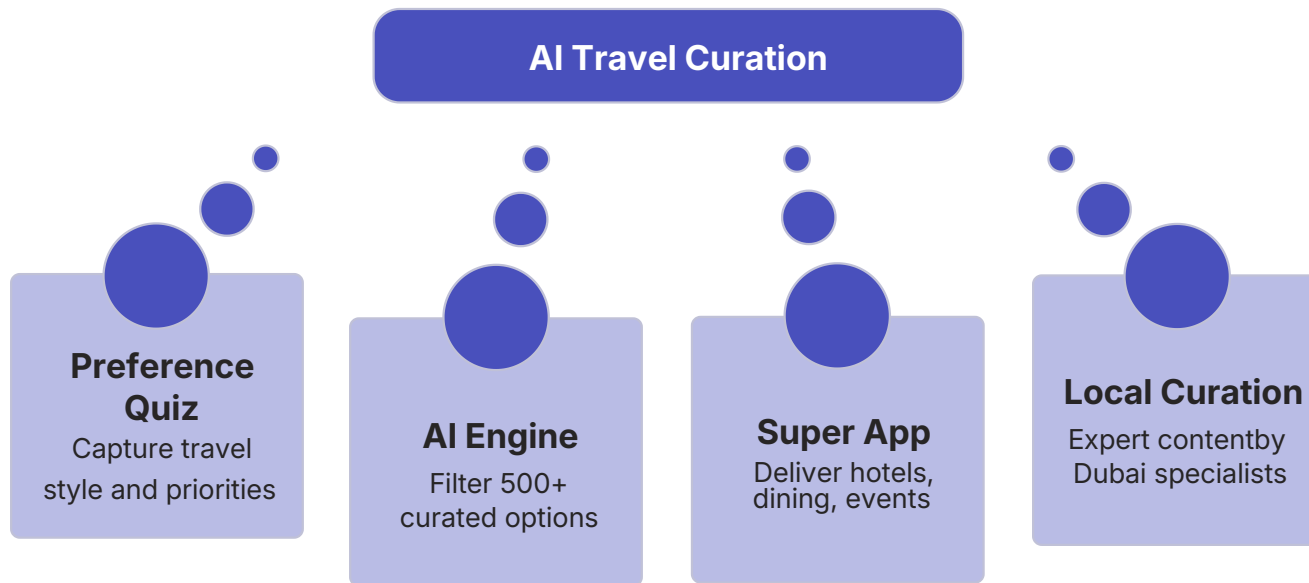

## No Local Expertise

Tourist-focused algorithms miss authentic, off-the-beaten-path local experiences.

## Missed Events

Travellers miss real-time pop-ups, festivals, and city happenings with no live feed.

# How ClonifyNow Built the Platform

A fully integrated platform ecosystem designed to eliminate friction and deliver a premium, end-to-end travel experience from first tap to final destination.

## Preference Questionnaire

Smart onboarding captures travel personality in minutes.

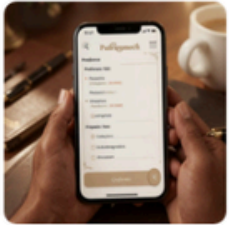

## Itinerary Builder

Custom and pre-made day-by-day travel plans at your fingertips.

## Live Events Feed

Real-time concerts, exhibitions, festivals, and local happenings.

# Core App Features

## Preference Questionnaire

Personalised travel matching from the very first session.

## Hotel & Restaurant Discovery

Curated stays and dining tailored to your travel style.

## Activity Hub

Adventures, hidden gems, and authentic local experiences.

## Live Events Calendar

Real-time discovery of what's on across the city, right now.

## Custom Itinerary Builder

Day-by-day trip planning

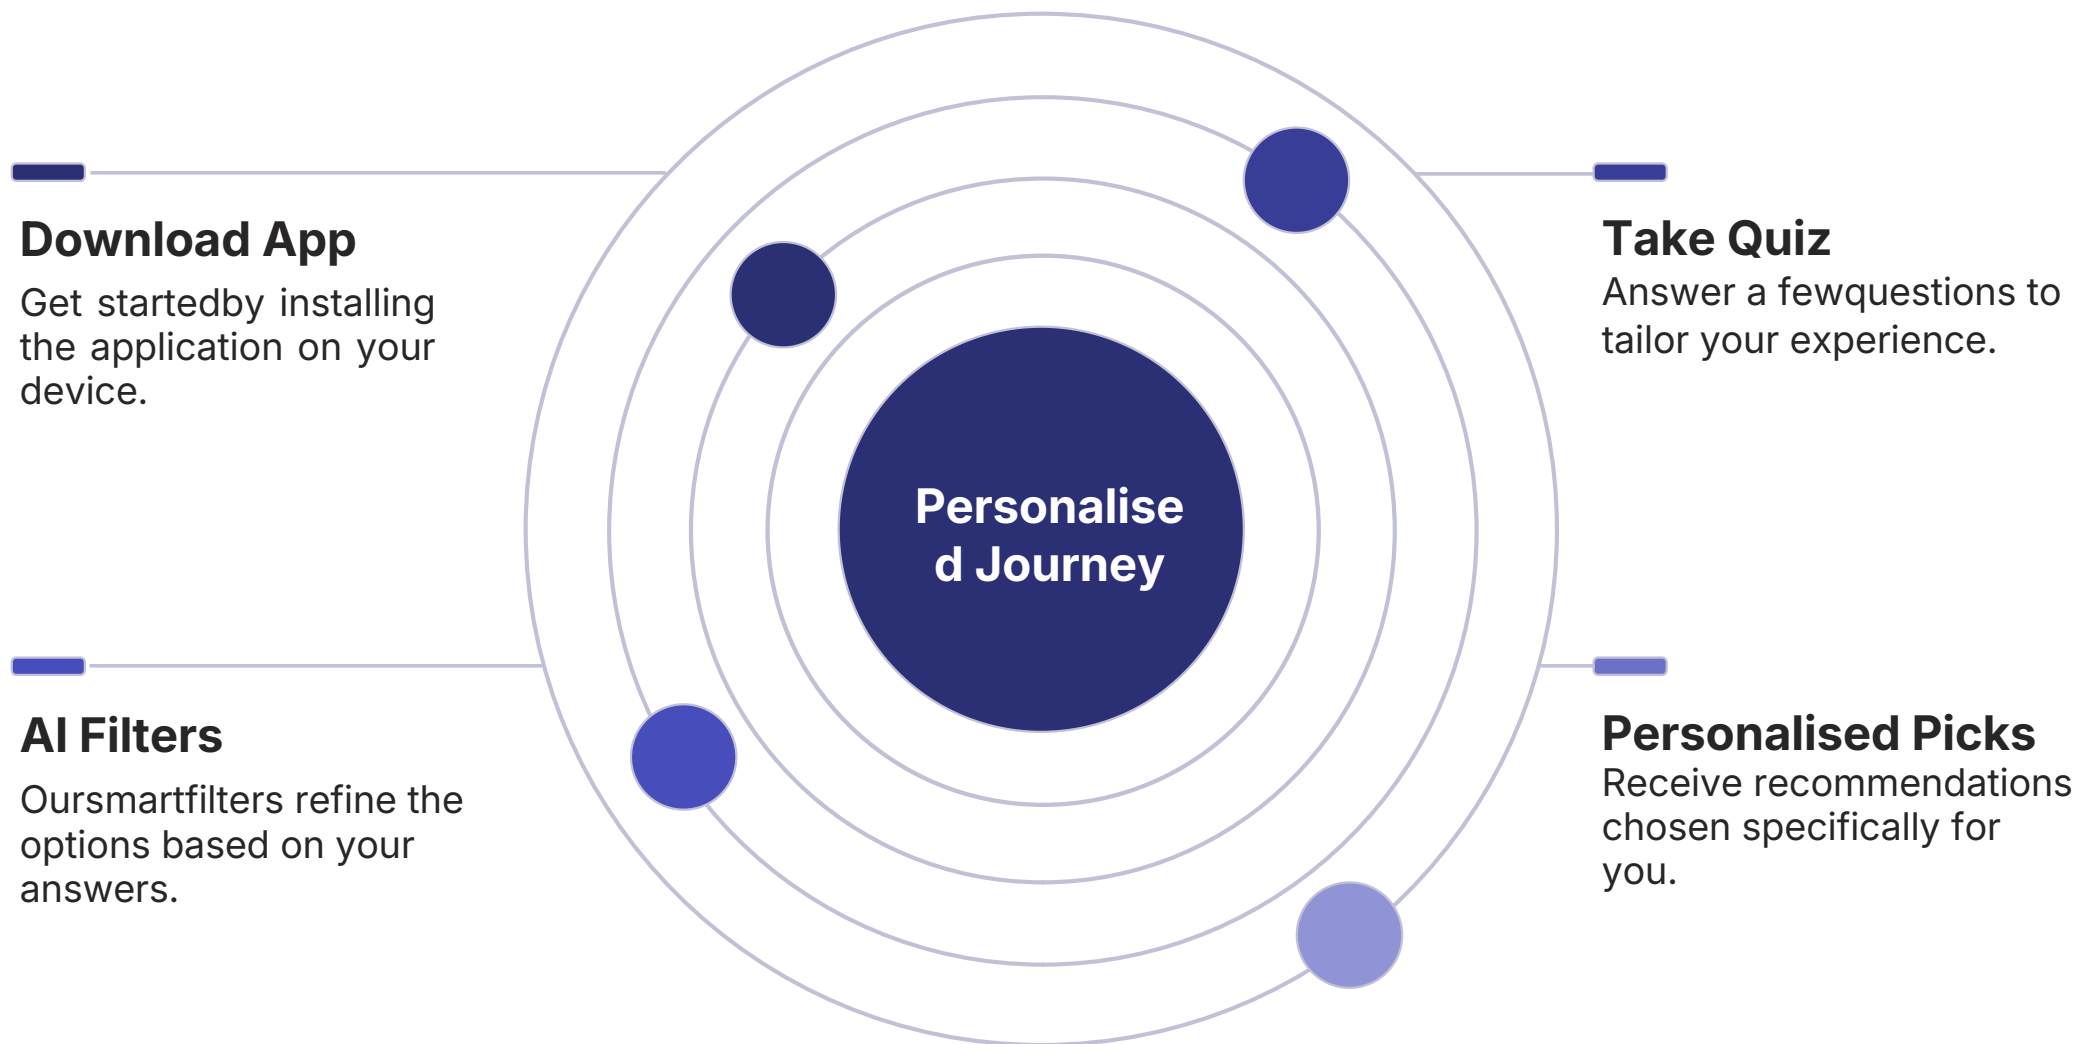

## Dubai FAQs & Tips

Expert travel guidance

## Regional GCC Coverage

Beyond Dubai, across the Gulf

# How It Works

Most users move from download to personalised recommendations in under three minutes — a seamless onboarding experience designed for today's discerning traveller.

 "Short on time? Skip the quiz and choose a ready-made itinerary — curated by Dubai's local experts."

# Why Build With ClonifyNow?

## 60% Faster Time-to-Market

White-label architecture slashes development timelines dramatically.

## 70% More Cost-Effective

Far more affordable than building a comparable platform from scratch.

## Full iOS & Android Delivery

Native performance with AppStore and Play Store readiness included.

## 100% Customisable

Fully rebrandable for any city, region, or market globally.

FUTURE VISION

# Scalable for Global Cities

MappedExperiencesisarchitectedasascalablewhite-labelplatformready to expand beyond Dubai into the world's most compelling travel destinations.

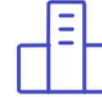

## Singapore

Smart city travel ecosystem
